## DETAILED ACTION

### *Response to Amendment*

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The Examiner suggests following changes:

In claim 1, line 1, change "A" to --In a--, and change "having" to "comprising";  
line 2, after "elasticity," insert --the improvement--.

In claim 8, line 2, delete "completely".

3. Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention, substantially for the reasons set forth in section 4 of Paper No. 6, together with the following additional observations.

The disclosure fails to state, <sup>teach,</sup> or even hint to ~~teach~~, one of ordinary skill in the art such parameters as suitable elastic materials for the elastic tape, the size or amount of the stiffening strip, the "openness" of the "open surface" (1), or the "denseness" of the "dense" structure (2), etc. Also, no working examples disclosing the necessary

parameters have been provided. In essence, Applicant's Specification constitutes little more than an invitation to experiment.
